Dress her for success and give her the gift of girl power, all in one lovely garment. The playful animal-print skirt is balanced by the round pleated neckline and streamlined silhouette that render this dress utterly sophisticated. The best part, though, is the story that comes along with it. The tag of each dress from Shabby Apple introduces the wearer to one of the women who has benefited from the micro-loans the company helps make possible. Looking hot in this dress will not only make her feel powerful, but it'll share the love with another woman half a world away. (shabbyapple.com, \$82)
